TO OUR SHAREHOLDERS:

This Management's Discussion and Analysis ("MD&A") supplements, but does not form part of, the condensed interim financial statements of the Company and the notes thereto for the six month period ended 31 January 2015. Consequently, the following discussion and analysis of the financial condition and results of operations for Greatbanks Resources Inc. (formerly Invenio Resources Corp.) ("Greatbanks" or the "Company"), should be read in conjunction with the condensed interim financial statements for the period ended 31 January 2015, and the audited consolidated financial statements for the year ended 31 July 2014, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), consistently applied.

Discussion of the Company, its operations and associated risks is further described in the Company's filings, available for viewing at www.sedar.com. A copy of this MD&A will be provided to any applicant upon request.

Forward looking statements

Certain statements contained in the following MD&A and elsewhere constitute forward-looking statements. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements in light of the risks set forth in the Company's filings and herein.

The table below sets forth the significant forward-looking information included in this MD&A:

Forward-Looking Information	Key Assumptions	Most Relevant Risk Factors
Future funding for ongoing operations	The Company will be able to raise these funds.	Failure to raise these funds will materially impact the Company's ability to continue as a going concern.

GENERAL

The Company was incorporated in the Province of British Columbia on 20 December 1996.

HIGHLIGHTS, SIGNIFICANT EVENTS AND TRANSACTIONS

On 24 December 2014, Mr. Jeff Block resigned as CFO and was replaced by Mr. Ronnie Doman in this capacity. Mr. Block will continue to work with the Company from an accounting perspective.

On 9 October 2014, the Company announced appointment of two new directors, Andrew Male, and Jeff Stevens. Mr. Male will assume the role of President and CEO while Mr. Stevens will take the role of Vice President Corporate Finance. This news release also mentioned resignation of Allan Marter from the Board of Directors.

On 8 July 2014, the Company announced the resignation of Ken Booth as CEO, President and Director of the Company effective immediately. The board thanked Mr. Booth for his dedicated work on behalf of the shareholders. Allan W. Williams, director, has been appointed as interim CEO and President and Ronnie D. Doman has been appointed as a director. Mr. Doman is a Chartered Accountant and previously served as the Company's CFO.

On 14 January 2014, the Company closed a non-brokered private placement of senior unsecured debentures (the "Debentures") for gross proceeds of \$30,000. The debentures have a minimum face value of \$1,000, each bearing interest of 10% per annum over a two year term issued together with bonus warrants. The principal amount and

all accrued and unpaid interest shall be due and payable in full on 14 January 2016 (the "Maturity Date"). The Debentures all rank pari passu in priority among each of them and the principal and accrued interest may be pre-paid after one year from the date of issuance, in whole or in part (pro-rata), provided that a pre-payment penalty must also be paid to the Debenture holders equal to 75% of the amount of interest that would accrue from the date of pre-payment on the Maturity Date.

EVENTS SUBSEQUENT TO 31 JANUARY 2015

On 11 February 2015, the Company announced that the TSX Venture Exchange has approved the change of the Company's name to "Greatbanks Resources Ltd." and the concurrent change of the Company's stock symbol to "GTB", and the continuance of the Company from the laws of the Province of British Columbia to the laws of the Province of Ontario (the "Continuance").

On 18 February 2015, the Company announced that it has completed its shares-for-debt settlement to settle aggregate total debt of \$98,500 owing to certain directors, both external and internal to the Company. Under the debt settlement, the Company issued an aggregate of 1,970,000 common shares of the Company at deemed price of \$0.05. The shares were issued on 5 February 2015 and are subject to a hold period expiring on 6 June 2015.

On 19 February 2015, the Company altered its authorized share capital by consolidating all of the issued and outstanding common shares of the Company on the basis of one (1) post-consolidation common share for every four (4) pre-consolidation common shares. In the event that the consolidation would otherwise result in the issuance of fractional common shares, no fractional common shares shall be issued and such fraction will be rounded down to the nearest whole number.

RESULTS OF OPERATIONS

The comprehensive loss for the six month period ended 31 January 2015 was \$193,708 which compares to a comprehensive loss of \$119,358 during the same period in 2014. The main fluctuations in costs are as follows:

Management Fees (Rounded)	6 months 2015	6 months 2014	3 months 2015	3 months 2014
	\$ 102,000	\$ 75,000	\$ 95,000	\$ 30,000
Variance increase	\$ 73,000		\$ 65,000	

The increase in management fees is attributable to the appointment of a new CEO, CFO, and VP of Finance during the six month period ended 31 January 2015.

Office and general (Rounded)	6 months 2015	6 months 2014	3 months 2015	3 months 2014
	\$ 34,000	\$ 2,000	\$ 34,000	\$ 2,000
Variance increase	\$ 32,000		\$ 32,000	

The increase in office and general is primarily attributable to travel and administrative costs incurred by management as they focus on identifying asset opportunities that meet their exploration, production, and growth criteria.

Professional fees (Rounded)	6 months 2015	6 months 2014	3 months 2015	3 months 2014
	\$ 27,000	\$ 9,000	\$ 22,000	\$ 5,000
Variance increase	\$ 18,000		\$ 17,000	

The increase in professional fees results from legal and accounting services incurred as the Company arranged a shares-for-debt settlement, a continuance of the Company from the laws of the Province of British Columbia to the laws of the Province of Ontario, and a 4 for 1 share consolidation.

SUMMARY OF QUARTERLY RESULTS

The following table sets out selected unaudited quarterly financial information of the Company and is derived from the unaudited interim financial statements prepared by management. The Company's interim financial statements are prepared in accordance with Canadian generally accepted accounting principles and are expressed in Canadian dollars.

Financial data for last eight quarters

	IFRS	IFRS	IFRS	IFRS	IFRS	IFRS	IFRS	IFRS
Three Months Ended	Jan-15	Oct-14	Jul-14	Apr-14	Jan-14	Oct-13	Jul-13	Apr-13
Total revenues	\$Nil	\$Nil	\$Nil	\$Nil	\$Nil	\$Nil	\$Nil	\$Nil
Loss (gain) and comprehensive loss	\$168,477	\$25,231	\$47,266	\$21,932	\$60,819	\$58,539	\$74,078	\$73,536
(Earnings) loss per share	\$0.01	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00

The increased loss realized during the three month period ended 31 January 2015 is the result of management and professional fees incurred by the Company as its focus shifts to the identification of asset opportunities that meet the board's exploration, production, and growth criteria.

The losses incurred during the preceding seven fiscal quarters result primarily from management and compliance related fees.

OUTSTANDING SHARES

As at 31 January 2015, the Company had 22,303,794 common shares issued and outstanding. As at 31 January 2015, the fully diluted amount of 23,081,294 represents options of 537,500 and warrants of 240,000. Subsequent to the period-end the Company issued 1,970,000 common shares in a shares-for-debt settlement and altered its authorized capital by consolidating all issued and outstanding common shares on the basis of one (1) post-consolidation common share for every four (4) pre-consolidation common shares. As at the date of this report the Company had 6,068,448 common shares outstanding and has a fully diluted amount of 6,262,823 which represents options of 134,375 and warrants of 60,000.

LIQUIDITY AND CAPITAL RESOURCES

The Company's working capital deficiency at 31 January 2015 was \$628,791, compared with \$440,750 at 31 July 2014.

Cash (used) generated in operating activities during the six month period ended 31 January 2015 totalled \$(431) (Comparative Period - \$21,814).

Cash generated in financing or investing activities during the six month period ended 31 January 2015 was \$nil (2014 - \$30,000).

The Company has no recent history of profitable operations. Therefore, it is subject to many risks common to comparable companies, including under-capitalization, cash shortages and limitations with respect to personnel, financial and other resources as well as a lack of adequate revenues.

It will be necessary for the Company to arrange for additional financing to meet its ongoing requirements.

Management believes it will be able to raise equity capital as required in the long term, but recognizes the risks attached thereto. Although the Company has been successful in the past in obtaining financing, there can be no

assurance that it will be able to obtain adequate financing in the future or that the terms of such financing may be favourable.

The following table summarized the Company's significant remaining contractual maturities for financial liabilities as at 31 January 2015 and 31 July 2014:

	Less than 3 months	3 to 12 months	Over 12 months	Total
As at 31 January 2015				
Trade and other payables	\$ 631,083	\$ -	\$ -	\$ 631,083
Debentures payable	3,000	-	33,000	36,000
	\$ 634,083	\$ -	\$ 33,000	\$ 667,083
As at 31 July 2014				
Trade and other payables	\$ 449,722	\$ -	\$ -	\$ 449,722
Debentures payable	-	3,000	33,000	36,000
	\$ 449,722	\$ 3,000	\$ 33,000	\$ 485,722

EXPLORATION AND EVALUATION EXPENDITURES

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyance history characteristic of many exploration and evaluation assets.

Green Springs (Nevada), Kings Canyon, Millard County Property and Caldera (Utah)

On 8 February 2012, the Company amended the terms of an agreement dated 9 May 2006 with Palladon Ventures Ltd. on the Green Springs and Kings Canyon projects. However, on 23 May 2012, the Company announced it has sold its share of the Kings Canyon Project (the "Project") located in Utah. The Company and Palladon closed a transaction giving Geomark Exploration Ltd. control over 100% of the Project. Geomark paid each of the Company and Palladon \$162,500 and assumed the existing option the Company had with Crown Resources Ltd. and acquired a 100% interest in claims surrounding the Crown Resources land. The Company has recognized a gain on sale of \$64,490 which was recognized during the year ended 31 July 2012.

On 14 February 2013, the Company announced that it was not continuing with its option on the Green Springs gold property in Nevada. The Company received \$50,000 for the early termination of the option. The Company's investment in the Green Springs property was written off, resulting in a gain of \$26,924.

During the year ended 31 July 2013, the Company advanced \$20,000 and accrued a further \$5,000 to Palladon Ventures Ltd in relation to a reclamation obligation on the Caldera property. While management expects further remediation obligations on this property, the amount is neither fixed nor determinable. Accordingly, no further remediation obligation has been accrued as at 31 January 2015.

By an agreement dated 6 December 2006, the Company was granted an option to acquire a 100% interest in certain mineral claims located in Millard County, Utah, USA. During the year ended 31 July 2009, management decided not to continue with its exploration program on these claims. However, during the year ended 31 July 2012, the Company issued 75,000 common shares valued at \$5,750 with respect to this property to maintain its interest in the claims. The shares were valued at the market price on share issue date. No shares were issued during the six month period ended 31 January 2015.

CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is in the business of exploration and evaluation and has no source of operating revenue. Operations are financed through the issuance of capital stock. Capital raised is held in cash in an interest bearing bank account and in guaranteed investment certificates until such time as it is required to pay operating expenses or exploration and evaluation costs. The Company is not subject to any externally imposed capital restrictions. Its objectives in managing its capital are to safeguard its cash and its ability to continue as a going concern, and to utilize as much of its available capital as possible for exploration activities.

RISK FACTORS

Companies face many and varied kinds of risks. While risk management cannot eliminate the impact of all potential risks, the Company strives to manage such risks to the extent possible and practical. Following is the risk factor most applicable to the Company.

ENVIRONMENTAL

Exploration and development projects are subject to the environmental laws and regulations of the jurisdictions within which the Company is conducting its operations. As such laws are subject to change, the Company carefully monitors proposed and potential changes, and ensures that it is and will be in strict compliance.

Various non-governmental organizations dedicated to environmental protection monitors, amongst others, the mining industry. These organizations have in the past commenced actions with the regulatory agencies or the courts to prevent or delay resource extraction activities.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements.

CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amount and classification of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

GREATBANKS RESOURCES INC.

Canadian Funds

The following are the critical judgments and areas involving estimates, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amount recognized in the condensed interim financial statements.

a) Rehabilitation Provisions

Rehabilitation provisions have been assessed based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period.

Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs which will reflect the market conditions at the time the rehabilitation costs are actually incurred.

At 31 January 2015, management assessed that the Company did not have any significant rehabilitation provisions.

b) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

INVESTOR RELATIONS ACTIVITIES

With respect to public relations, the Company's policy is to provide information from its corporate offices to investors and brokers directly.

APPROVAL

The Board of Directors of Greatbanks has approved the disclosure contained in this MD&A. A copy of this MD&A will be provided to anyone who requests it.

ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS WITHOUT SIGNIFICANT REVENUE

Additional disclosure concerning Greatbanks' general and administrative expenses is provided in the Company's Audited Consolidated Statement of Loss, Comprehensive Loss and Deficit contained in its Annual Audited Consolidated Financial Statements for 31 July 2014. This information is available on its SEDAR page site accessed through www.sedar.com.

A CAUTIONARY TALE

This document contains “forward-looking information” which may include, but is not limited to, statements with respect to the future financial or operating performance of the Company, its subsidiaries and its projects, the future supply, demand, inventory, production and price of mineral resources, the estimation of reserves and resources, the realization of reserve estimates, the timing and amount of estimated future production, costs of production, capital, operating and exploration expenditures, costs and timing of the development of new deposits, costs and timing of future exploration, requirements for additional capital, government regulation operations, environmental risks, reclamation expenses, title disputes or claims, limitations of insurance coverage and the timing and possible outcome of pending litigation and regulatory matters. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or variations (including negative variations) of such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; actual results of reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of resources; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the resource industry; political instability, insurrection or war; delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
